

**This is one day's activity. Line 2 is the end of the day, line 378 the beginning of the day.**

**This is the type of day that must be included in a letter of complaint or legal claim.**

**Whilst the loss is small on the day compared to the betting turnover there are factors highly suggestive of someone with a gambling disorder, e.g. the mix of bet types placed, which include a long time played at high stakes in the casino, football in different countries, racing in different countries and American football. This is clearly a customer who is betting 'wildly', so intervention by the gambling company should have been the outcome.**
